

# STUDY MBBS

## ZHEJIANG UNIVERSITY

SCHOOL OF MEDICINE

Founded 1897

Hangzhou **Recognized by**  
**Singapore Medical Council**

**Only RM 160,000 for 5 years**

## Zhejiang Medical University

Zhejiang University School of Medicine grew out of Chekiang (Zhejiang) College of Medicine founded in 1912. In 1945, it was merged into Chekiang (Zhejiang) University Medical School. The College and its affiliated hospitals were then merged into one as Zhejiang Medical college in 1952 and it was upgraded to Zhejiang Medical University in 1960. In 1998, Zhejiang University, Hangzhou University, Zhejiang Agricultural University and Zhejiang Medical University were merged to form a new Zhejiang University. The following year, Zhejiang University School of Medicine (ZUSM) was re-established and became the largest school among 22 schools or colleges. Although ZUSM has changed its names and locations several times, it remains the most eminent medical institutions in the region. Today its ranks as one of the famous medical educational institutions in China whose dynamics and strengths in medical education, scientific research and clinical practice are well recognized.

Seven departments constitute the School. Both undergraduate programs and postgraduate programs are provided, fields covering Biomedicine, Public Health, Clinical Medicine, Stomatology, Nursing etc. Moreover, ZUSM edits and publishes such scientific journals as China's Higher Medical Education, Chinese Journal of Emergency medicine, Journal of Infectious Diseases, HPBD. (INT), Journal of Practical Oncology, Journal of Zhejiang University (medical edition), Clinical and Education of General Practice, Healthy Life.

It has established international links with scores of medical institutions in Asia, Europe, Australia and North America. Programs like collaborative research projects and exchanges of faculty and students have been launched.

This is an age of change, yet we will learn from our history, take responsibility for the future, and promote the unique Nature of the ZUSM environment. No effort will be spared to Cultivate promising professionals in academic, education and medical practice who will be outstanding in knowledge, experience, skills, qualities, responsibility and values. "From the Dean's office.

Separate hostel for Boys and Girls with all amenities, a well protected hostel for Girls. Negotiations are on to provide clinical rotations in USA.

Visiting faculties to be arranged from USA and Europe.

Massive infrastructure with all resources and modern equipments.

Attached with 4000 bedded hospitals.

Far better than those costly Caribbean schools [medical school shops rather].

Located in one of the most beautiful cities in the world that has been attracting tourists for the last 2000 years from all over the world.

Recognized by World health Organization and the WHO directory mentions the language of instruction to be in English, Chinese and Japanese. [No other medical universities other than China Medical University has this] Recognized by FAIMER and Published in the IMED directory.

Rapid progress has been made in organ transplantation. Kidney, liver, heterogeneous bone marrow, corneal and combined liver kidney, pancreas duodenum kidney and heart lung transplantation have been successfully performed in the hospital.

## Why ZUSM ?

The University LISTED in the top five universities in China.

The whole program is taught in English.

International curriculum is taught.

Most of the faculty are educated from USA, UK, Canada or Europe for Medical education. In fact some of them have been working in hospitals in USA.

Training for USMLE programs are provided through online testing formats on request.

Now the hospital has become **one of the most famous organ transplantation centers in China**. Great achievements in scientific researches have been made during the past five years. Both "Combined pancreas duodenum kidney transplantation" and "Artificial liver supporting system" have won the Second Prize in a National Award and the first in Science and technology Advancement provincially. Great achievements were also made in other fields.

Now there are about 1650 staffs in the hospital, including 250-some senior doctors and nurses.

In addition, it encompasses four institutes, namely, Institute of Surgery, Institute of Infectious Disease, Institute of Hematology, and Institute of Cardiology.

#### PROGRAMS OFFERED:

Clinical Medicine- MBBS program (5 years) - English Medium

#### Medical Programs offered in Chinese medium:

Seven years program of clinical medicine (for Master's Degree)

Master's Degree: Three years

Doctor's Degree: Three years

Scholar: One year or two years

#### Duration

Academic year: From September 1 to July 30 of second year is one academic year.

Educational system: Bachelor's Degree: Five years;

Seven years program of clinical medicine (for master's Degree);

Master's Degree: Three years;

Doctor's Degree: Three years;

Scholar: One year or two years

## Institutes

1. Institute of Ophthalmology
2. Institute of Immunology
3. Institute of Cellular Biology
4. Institute of Pathology & Forensic Medicine
5. Institute of Social Medicine & General Medicine
6. Institute of Industrial Hygiene & Environmental Hygiene
7. Institute of Medical Nutrition & Food Hygiene
8. Institute of Infectious Diseases
9. Institute of Hematology
10. Institute of Oncology
11. Institute of Pediatrics
12. Institute of Surgery
13. Institute of Cardiovascular Diseases
14. Institute of Brain Medicine
15. Institute of Emergency Medicine
16. Institute of Orthopedics
17. Institute of Obstetrics & Gynecology
18. Institute of Family Planning
19. Sir Run Run Shaw Research Institute of Clinical Medicine
20. Institute of Respiratory Medicine
21. Research Centers
22. Research Center for Brain Intelligence
23. Research Center for Stem Cell and Tissue Engineering
24. Research Center for Disease Models and Simulations

## Key Disciplines

Zhejiang University School of Medicine is also the Zhejiang Branch of Chinese Academy of Medical Sciences. In the past five years, academic staff members in the School undertook a wide spectrum of research, from frontier basic medical science research to cutting edge clinical research. 103 projects were granted from National Natural Science Foundation, together with hundreds of key projects from the Ministry of Health, the Ministry of Education and the Provincial Government.

## Hangzhou City

Hangzhou, the capital of Zhejiang province in east China, lies close to the mouth of the Qiantang River at the western end of the Gulf of Hangzhou.

Hangzhou underwent dramatic development when the Song Dynasty, pushed south by the conquering Jin, established its capital there. In a short space of 100 years, the population grew to almost a million and the town flourished as a major trading center. Although the city was partly destroyed by the invading Mongols in the late 13th-century, it appeared impressive to Marco Polo when the famous Italian traveler visited the city shortly afterwards. **According to Marco Polo, Hangzhou was "without doubt the finest and most splendid city in the world... there are said to be 13,000 bridges, mostly of stone... vast are the numbers of those accustomed to dainty living, to the point of eating fish and meat at one meal."**

Today, the city remains renowned for its beauty, which some claim is unsurpassed in China; and although some of the historic buildings have been destroyed, the archaeological attractions that remain are still impressive. Many sections of the town have not changed for centuries, while the famous West Lake region retains its reputation as one of the most beautiful spots in China, with landscaped gardens on its banks, tree-shaded walks, and in the nearby hills, temples, pagodas, and monasteries.

Population 6.5 million

## Documents Required-Check List

A - level or equivalent local exam Mark sheet (Higher Secondary Mark sheet).

Passport copy.

Birth certificate.

Health examination.

Fill out Application form with photo.

You can fill the application form and scan and e-mail to us with all the above required Documents. You can carry the attested copies Directly to the university.

## Eligibility Criteria

Students who completed Local Board Exams Equivalent to A-Level GCE with Subjects Physics, Chemistry and Biology or Bachelors in Science Subjects.  
Below 30 years old.  
Good health is required.
